KOMMVIA™

Connecting Businesses™

Structured Cabling

DESIGN / INSTALLATION / TESTING / REPAIR

From a single data drop to a complete facility buildout, we install the cabling your phones, networks, and devices depend on, with clean routes and clear labels.

COPPER & VOICE CABLING

- Cat5e, Cat6 & Cat6A data cabling
- Voice lines & legacy copper infrastructure
- Data drops for phones, Wi-Fi & IP devices
- Jacks, patch panels & terminations
- Backbone cabling & facility expansions

FIBER OPTIC INFRASTRUCTURE

- Fiber optic installation & backbone cabling
- Fiber termination & testing
- Inter-building & facility connectivity
- Fiber patching & distribution
- Troubleshooting & repair

BUILDOUTS & RACK ORGANIZATION

- Office, warehouse & tenant improvements
- New construction & relocation cabling
- Network racks & data room buildouts
- Patch panels & cable management
- Cable cleanup, labeling & documentation

TESTING, CHANGES & REPAIR

- Copper cable testing & certification
- Damaged cable & connection troubleshooting
- Adds, moves & changes to existing drops
- Repair of jacks, panels & terminations
- Provider cutovers & cabling coordination

BUILT FOR YOUR FACILITY

Offices • Manufacturing & industrial facilities • Warehouses • Retail • Medical offices • Schools • Churches • Commercial buildouts

Working with business owners, general contractors, property managers, and facility teams to plan routes, coordinate access, and hand over an organized installation.
